

Sublimated Aluminium

Get the natural look of hardwood with commercial grade, zero maintenance, woodgrain aluminium

Available on all furniture using 135x30mm, 60x40mm and 40x30mm profiles*

Including 60x40 battens with R30 bullnose used for AS1428.2 DDA compliant furniture

No sanding and reiling required, occasional wash with warm water to protect the finish

Due to the powder coated base, sublimated battens will withstand all reasonable force and not show chipping, flaking or peeling as per AS3715 standards

Available in CSA's standard Aussie Gum woodgrain, or ask us for alternate colour options

*excluding product ranges with tapered or circular cut battens

CSA's sublimated aluminium battens use RenewAl™ which has a carbon dioxide (CO2) footprint that is **3 times lower** than the industry average aluminium batten.

The aluminium is **100% recyclable** and made with a powder coated base coat which is the most environmentally friendly industrial coating, with **no VOC's and solvents**.

Superior mar resistance and a colour stable base will provide your furniture with an everlasting aesthetic. No warping, cupping or insect susceptibility.

Available in 5500mm lengths, CSA can supply Aluminium Sublimated Aussie Gum Battens in all furniture using 135x30mm, 60x40mm and 40x30mm profiles. Including 60x40mm battens with R30 Bullnose used for AS1428.2 DDA compliant furniture.

*excluding product ranges with tapered or circular cut battens
